**IP SERVER ONE**<sup>®</sup>

## Overview

# Microsoft 365: Your Data. Your Responsibility

Say goodbye to data loss concerns – your Microsoft 365 data is protected, always accessible, and in your control.

While Microsoft manages key components like security, infrastructure, and controls, the most vital one—your data in the cloud—is your responsibility. With IP ServerOne’s cloud backup for Microsoft 365, you get a comprehensive yet simple solution to secure your important Microsoft 365 data, covering Mail, Calendar, Contacts, Tasks, Groups, Teams, OneDrive, and SharePoint.

- Protect Microsoft 365 data from accidental deletion and security threats
- Quickly restore Microsoft 365 data with industry-leading flexibility
- Meet compliance requirements with fast search-and-find capabilities

---

## Did You Know: Microsoft 365 Cyber-Attacks and Data Loss Are Common

**80%**

vulnerabilities discovered involve Microsoft 365 data.

**53%**

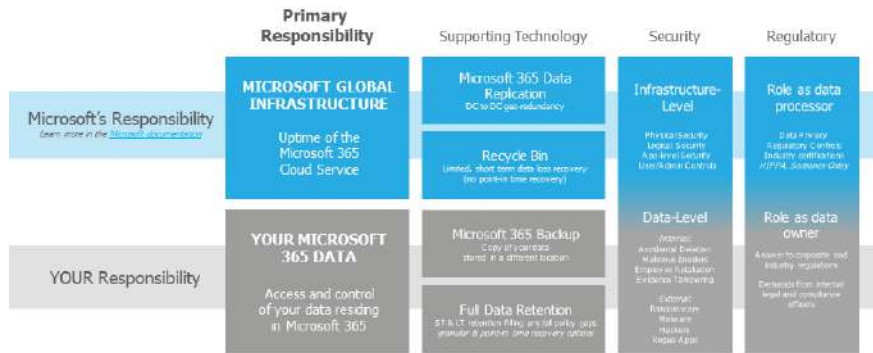

companies experienced data loss or corruption in SaaS applications in the past 12 months

**<25%**

are able to recover 100% of their Microsoft 365 data during a data loss incident

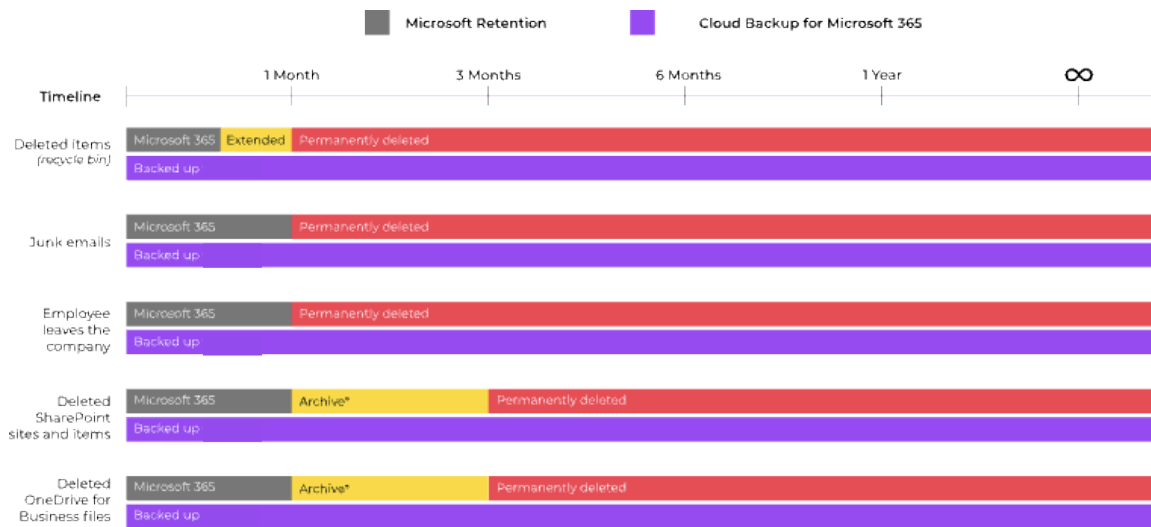

# Why backup your Microsoft 365 data?

## The Microsoft 365 Shared Responsibility Model

### 1 Your Data, Your Duty

There's a common misconception that Microsoft automatically backs up your data in Microsoft 365 (formerly Office 365). In truth, while Microsoft offers robust resiliency features and built-in compliance tools, they do not provide a complete backup solution. According to Microsoft's Shared Responsibility Model, organizations are accountable for their data backup.

### 2 Microsoft's Retention Policies

Did you know that Microsoft keeps your data for just a brief period?

The chart above displays how long Microsoft supports your data before you need to start safeguarding your 365 data yourself.

**So, now you know why the need to backup your Microsoft 365 data.**

Introducing IP ServerOne backup for  
Microsoft 365

## BENEFITS

### Data Protection

Safeguard and recover your Microsoft 365 data, including Exchange Online, SharePoint Online, OneDrive for Business, and Microsoft Teams.

### 24/7 Support

Get round-the-clock assistance from our expert team at IP ServerOne to address all your backup inquiries.

### Effortless Management

Easily manage your Microsoft 365 data with Veeam's user-friendly self-service portal, offering granular recovery options and more.

### Your Data, Your Rules

Tailor your backup management to your preferences, from self-administration to full IP ServerOne support. Achieving desired SLAs with customized RPO & RTO.

### Cost-Efficient Plans

Choose from affordable, business-specific plans. Switch to an OpEx model to reduce the Total Cost of Ownership (TCO) with subscription-based licensing starting at just USD3/user/month.

### Regulatory Compliance

Meet data retention regulations effortlessly with IP ServerOne's Microsoft 365 backup solution. Easily search and retrieve data to ensure compliance adherence.

# KEY FEATURES

## Comprehensive Data Protection

Protect critical data in Microsoft Teams, Exchange Online, SharePoint Online, and OneDrive for Business. Safeguard against data loss, deletions, and cyber threats using specific backup policies.

## 50 Office 365 Recovery Options

Simplify Microsoft 365 data recovery with a user-friendly portal. Easily restore emails and files, reducing IT involvement. Choose from various recovery options, including fine-grained, historical, and multi-user options.

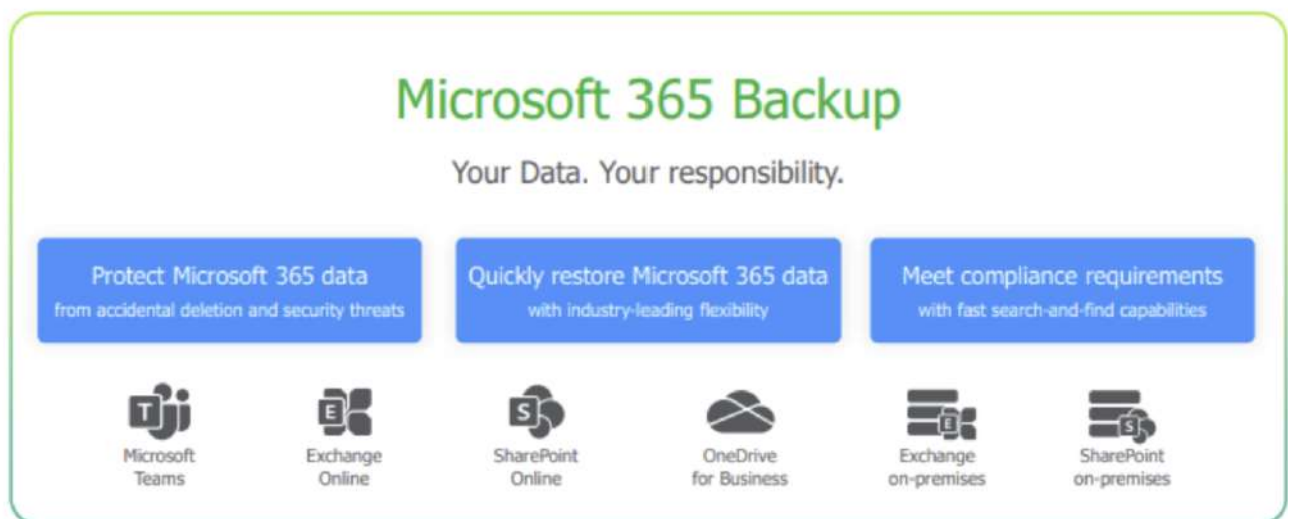

## Backup Immutability

Enhance Microsoft 365 data security against ransomware and human errors with immutability features. You can store immutable copies in various locations like Object Storage for added protection.

## Meeting Needs & Compliance

Efficiently search and retrieve data for legal and compliance needs with the powerful eDiscovery feature. Deploy the solution on-premises, in the cloud, or in a hybrid setup to ensure data protection flexibility.

## Protected workloads

**Microsoft 365 Backup**  
Your Data. Your responsibility.
